Thanks Megan. I took out a few of Kathy's comments on page one where you addressed them and deleted the background info. I'm looping Mike in to check tomorrow if Kathy is done or plans to review more as we do need to get this to Dave tomorrow. [Mike since you were having sharepoint issues, I'm attaching the latest draft.]

Again thanks for your work on this and enjoy your compressed day!

Mindy

Mindy,

I realized you were not on this chain. This was a new topic for me and I apologize, I over-sold how quickly this could be completed and it took a lot longer than I originally estimated. If I had more time, I would do additional summarizing and potentially some re-ordering.

Since I am less familiar with this proposal and unsure of the level of detail needed, I erred on the side of details and ensuring that no comments were dropped. I was especially detailed in the areas discussed on yesterday's call. Additionally, at the end of the NAHB comment letter they pose several policy/ legal/ implementation questions. I didn't want to just list out all of their questions, but the team may want to take a look at their questions.

I am compressed tomorrow, but want to make sure that this is at a level that can be shared. What are the next steps?

Mindy reminded me that Dave specifically asked to see any comment letters speaking to the issue of even if we go through with the formal consultation that section 10 will still apply to the individual permit actions to get a take statement. Could you please identify these and pull.

Thanks,  
Mike

I'm working on it now- taking longer than expected as many of the comments are detailed. I have shared my working draft with Kathy and Ruth to start editing from the top as I work my way through the sections. I will try to have a completed draft by 3.

Hi Megan,

Mindy was just asking me about the status of the summary of comments on the ESA FRN. How's it going Megan? When do you expect to wrap it up?

Thanks,
